

Academy Award nominee, **How To Survive A Plague** is coming to Southampton, Sun 1 December 2013 at 4pm.

How To Survive A Plague is the story of two coalitions — ACT UP and TAG (Treatment Action Group)— whose activism and innovation turned AIDS from a death sentence into a manageable condition. Faced with their own mortality, an improbable group of young people, many of them HIV-positive gay men, broke the mould as radical warriors taking on Washington and the medical establishment. This is their story.
